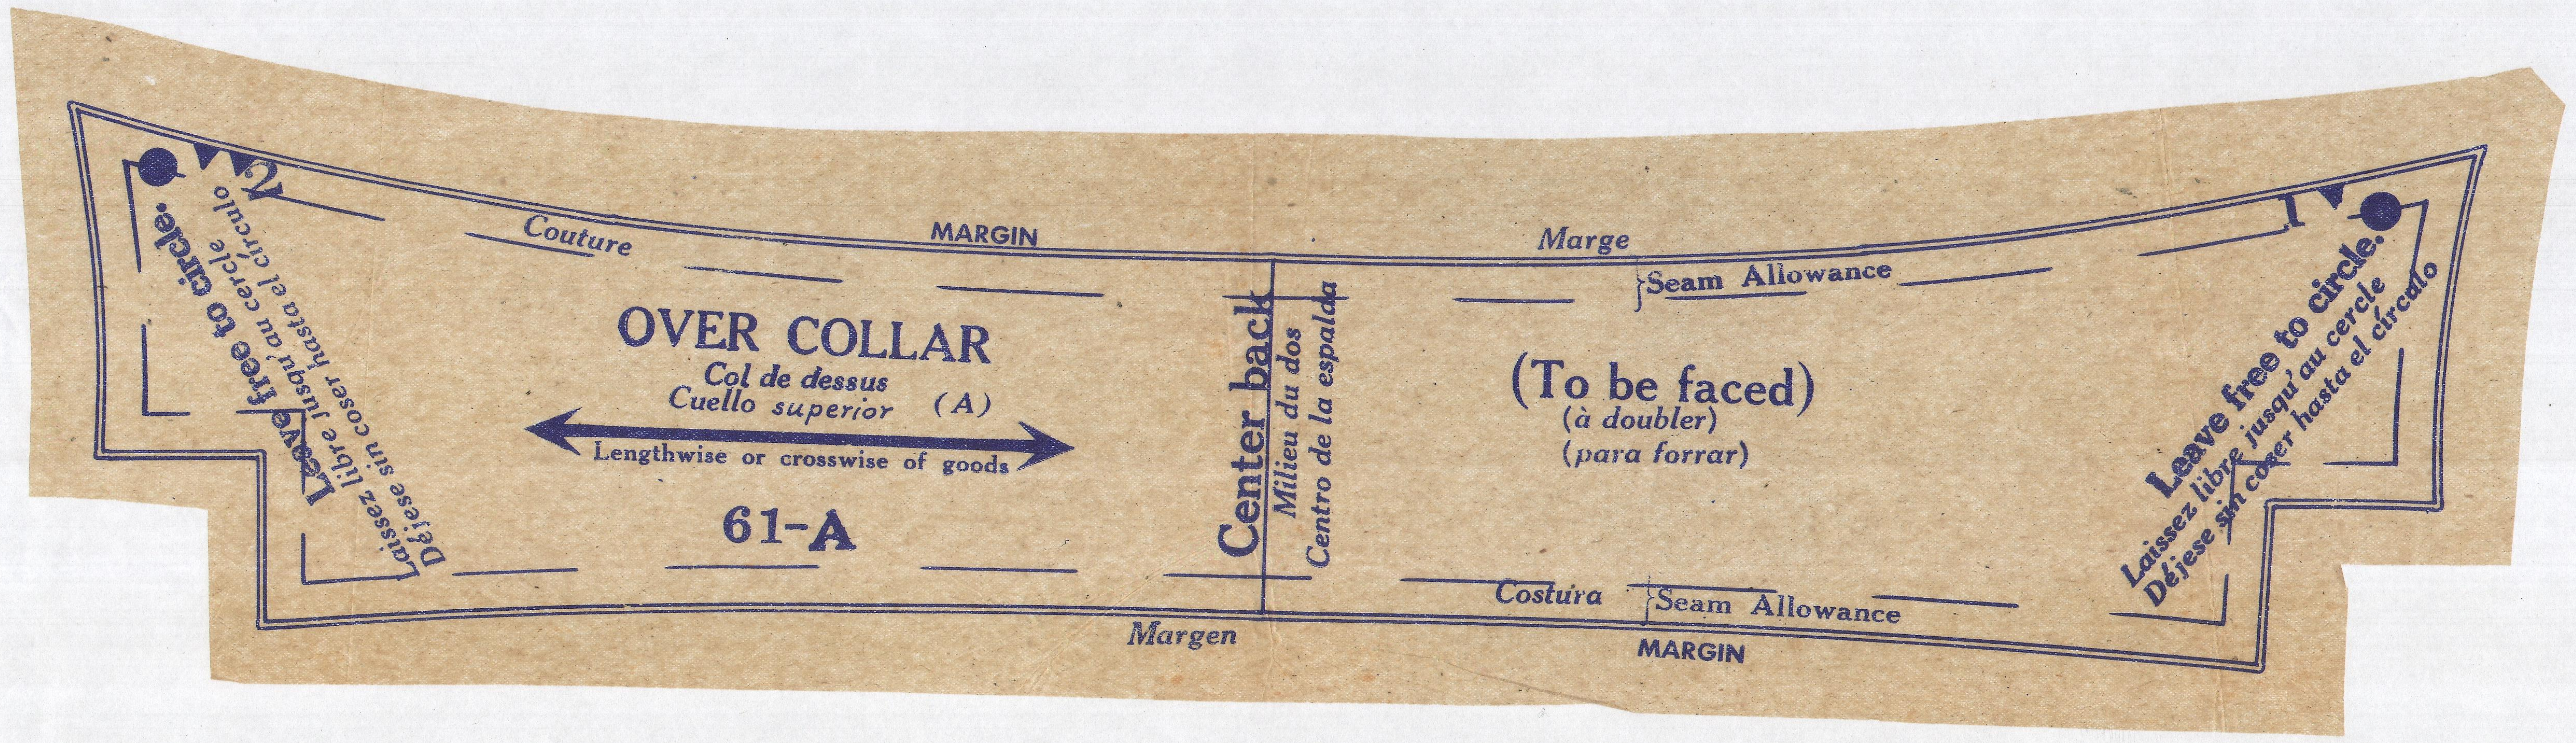
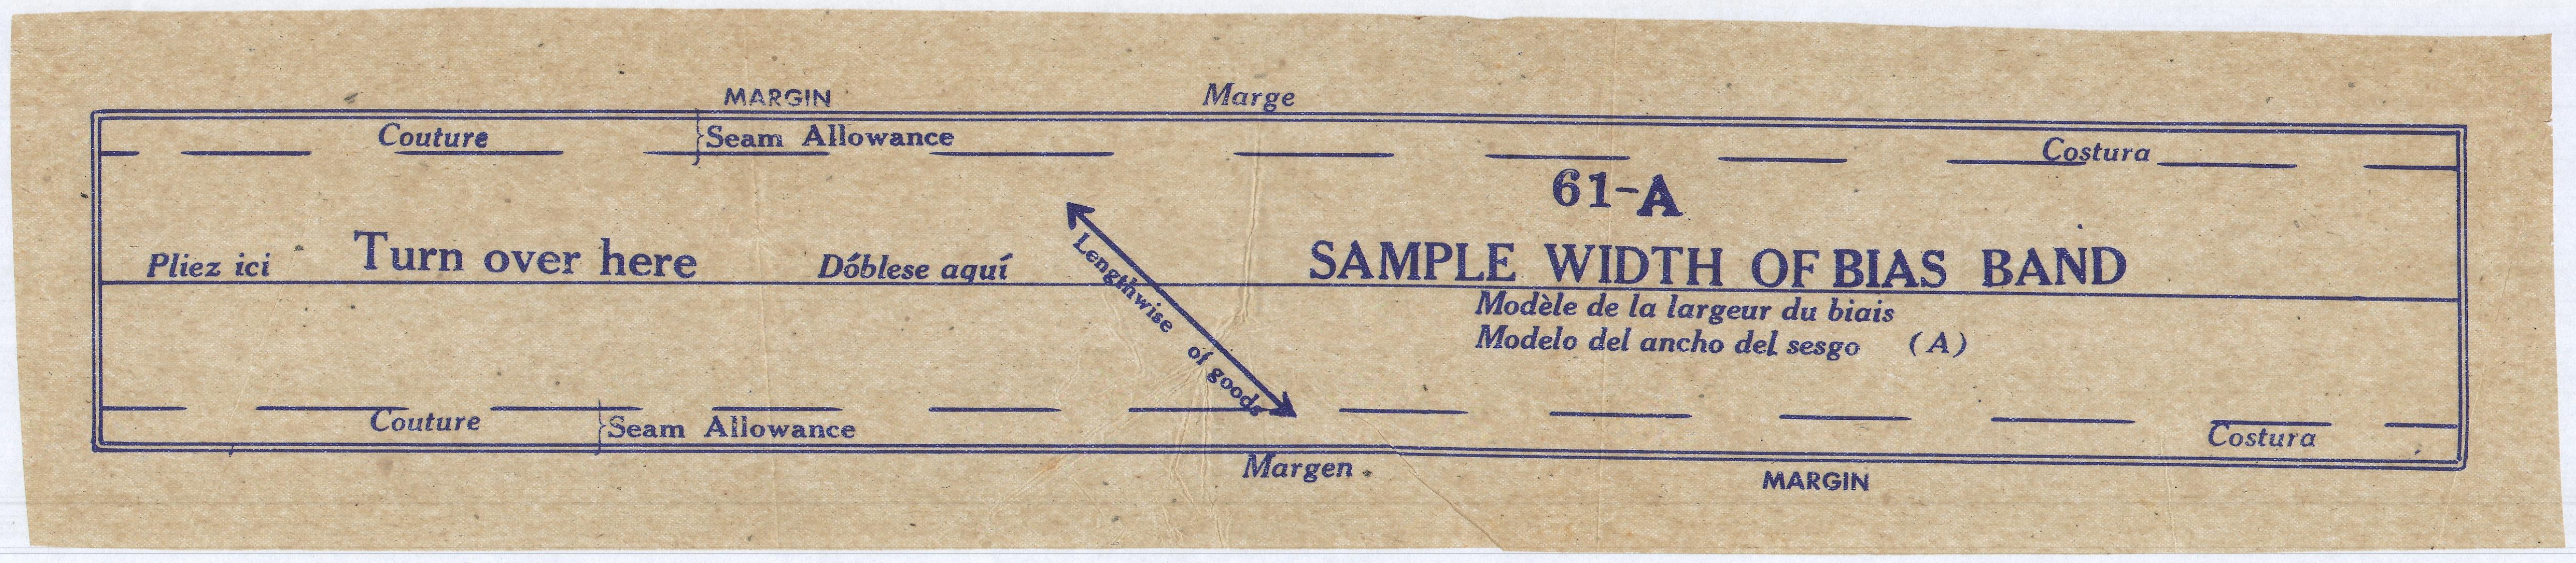
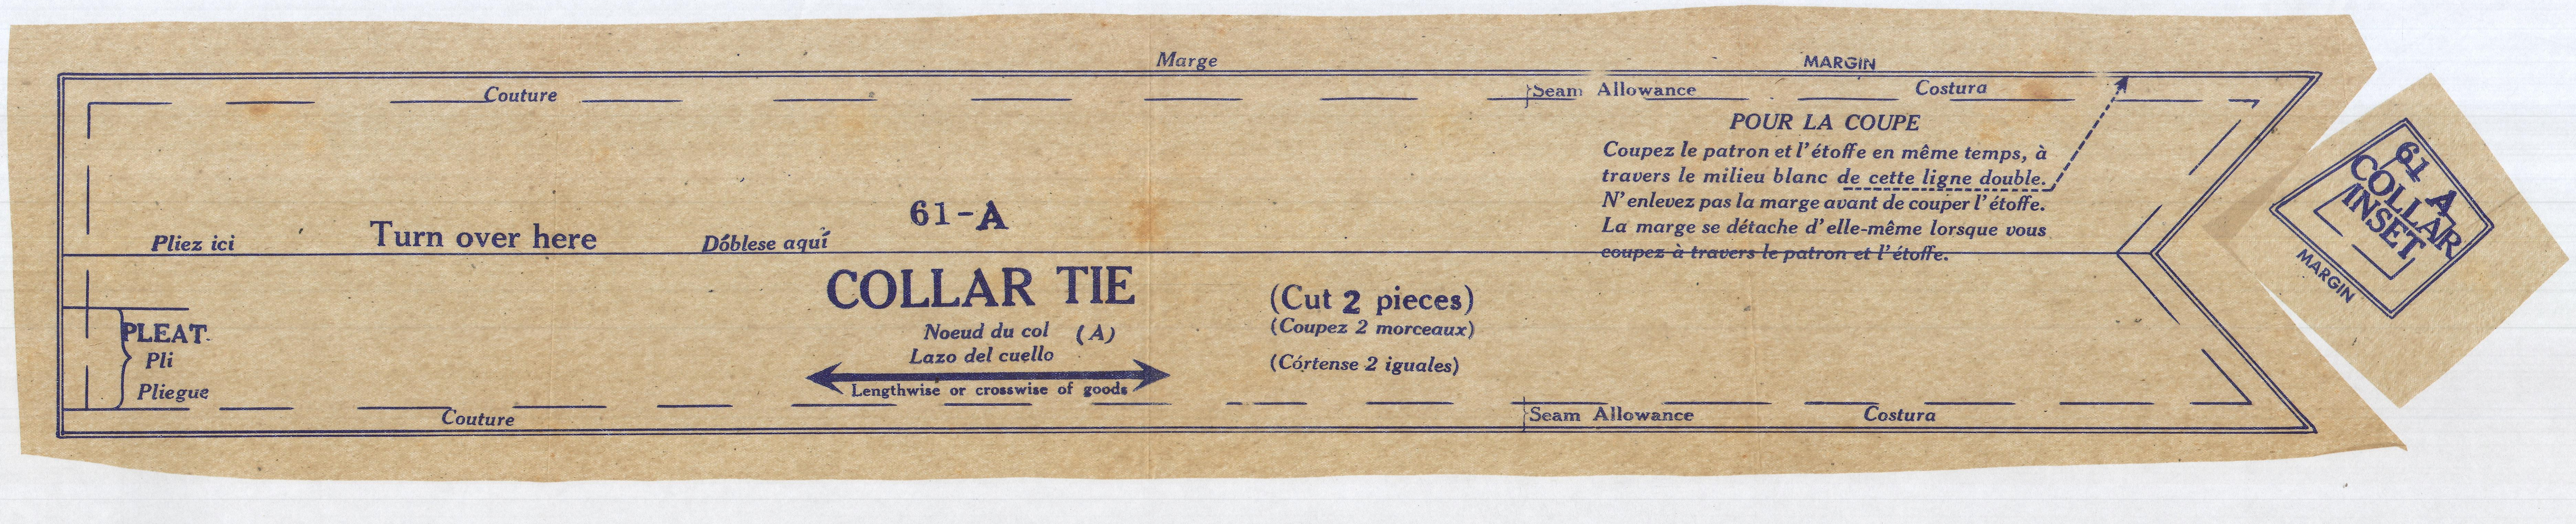
HOW TO CUT

Cut pattern and material together through the white center of this double line. Do not cut off the margin before cutting the material. The margin falls away as you cut through pattern and material.







POUR LA COUPE

Coupez le patron et l'étoffe en même temps, à travers le milieu blanc de cette ligne double. N'enlevez pas la marge avant de couper l'étoffe. La marge se détache d'elle-même lorsque vous coupez à travers le patron et l'étoffe.
